

Stoll would like to thank you for participating in the consultation and for sharing your views with us.

Over the past seven weeks, we have been able to share potential plans for the site, answer questions about the proposals and listen to your feedback.

The consultation ran from 16 January to 6 March 2018.

Although the date for responding has now passed, if you would still like to make a comment or have any further questions, please do not hesitate to contact the office.

You can also visit our FAQs page at www.stoll.org.uk to read more answers to common questions. If you have any further questions, please do ask your support worker.

We know that tenants would like an answer as soon as possible and we hope to be able to give confirmation of the board decision in just a few weeks.

Consultation responses

- People from 120 flats provided feedback on the consultation. This included formal and informal feedback. We are very pleased that so many people responded.
- 82 tenants submitted consultation forms.

What happens next?

Independent consultation agency Comm Comm are now writing a report for the Board of Trustees, setting out the feedback you have provided. Overall there appears to be strong support in favour of the proposal among those who responded to the consultation. You raised several key themes during the consultation and a selection is set out below.

- **Some tenants commented on the design of the new building**
If the proposal goes ahead, Stoll plans to hold various design workshops with residents to give them input into aspects of the design.
- **We received comments about the proposed facilities**
Thank you for all the comments. These are being considered carefully.
- **A number of tenants also commented about the need for support when moving if the proposal is adopted**
Stoll is committed to supporting people practically and emotionally, and if the proposal goes ahead, we would provide all the necessary support.

The image below shows some of the other issues raised by tenants

The Board will consider the report carefully, alongside other information, before deciding whether to proceed or not with the proposed redevelopment. We will update again in April.
