

19th April 2022

Dear Fulham Resident,

Proposed Development at Sir Oswald Stoll Mansions

We write to advise you that the Charity's Trustees propose to redevelop the scheme in Fulham and to sell the remainder of the site. Following resident consultation commencing shortly, the Trustees will decide the best way forward informed by your contribution to this consultation. We want to hear your views.

The Trustees have debated long and hard this issue as we understand the upheaval that development of the site would mean for you. We wanted to share with you the case for change, and this is attached to this letter, but the key areas of consideration for Stoll are:

- the age of the buildings and the ability of Stoll to maintain them to a high standard for the benefit of our residents;
- future regulatory compliance in building design and environmental impact; and,
- declining demand for accommodation in Fulham.

We recognize that this letter will raise questions and may cause some concern. Stoll will therefore be holding a series of consultations, which will commence shortly. We will be contacting you with dates.

Yours faithfully

Richard Gammage
Chief Executive

Air Vice-Marshal Ray Lock CBE
Chair of Trustees
